PROFESSIONAL SUMMARY

SEO and Growth specialist with 6 months of hands-on experience across EdTech and SaaS companies. Moved 10+ competitive keywords into Top 3 Google positions, optimized 30+ content pages, and built 1,500+ high-quality backlinks through structured outreach. Experienced in Answer Engine Optimization (AEO) — structuring content to appear in AI Overviews, featured snippets, and voice search results — and Generative Engine Optimization (GEO) — optimizing content for citation by AI tools like ChatGPT, Perplexity, and Google's AI Mode. Skilled in on-page SEO, technical SEO, off-page link building, content optimization, and AI-powered content workflows. Also capable in basic Python scripting and Node.js automation.

KEY RESULTS

#10 → #1 NUS MIM GMAT Score	#8 → #3 Imperial MBA Salary	1,500+ High-Quality Backlinks Built

EXPERIENCE

Growth & SEO Intern | [MiM-Essay](#) | [Kraya AI](#) | [Mentr-Me](#) Aug 2025 – Feb 2026

EdTech SEO — MiM-Essay

- Moved 10+ competitive MBA & MIM keywords from positions 4–10 into Top 3 on Google, including NUS MIM GMAT Score (#10 → #1) and Imperial MBA Salary (#8 → #3)
- Optimized 30+ content pages for search intent, semantic keyword coverage, heading structure, meta tags, and internal linking architecture
- Built 1,500+ high-quality backlinks via guest posts, infographic submissions, PDF submissions, podcast submissions, and contextual placements
- Ran technical SEO audits: indexation checks, canonical tag reviews, sitemap optimization, and crawl diagnostics using Screaming Frog and Google Search Console
- AEO (Answer Engine Optimization):** Structured content with direct Q&A format, FAQ schema, and concise answer blocks so pages appear in Google AI Overviews, featured snippets, and voice search results
- GEO (Generative Engine Optimization):** Wrote content with clear entity definitions, authoritative data citations, and structured facts so AI tools like ChatGPT, Perplexity, and Google AI Mode cite these pages as sources

SaaS SEO — Kraya AI (CRM Platform)

- Conducted commercial-intent keyword research mapping TOFU, MOFU, and BOFU queries for SaaS/CRM audience segments
- Optimized 5+ SaaS landing pages for search visibility and conversion alignment; wrote SEO-driven blog content on sales automation and CRM adoption

Platform Growth — Mentr-Me

- Supported ORM activities including brand presence monitoring, GMB optimization, and community growth initiatives

PROJECTS

SEO + CRO Landing Page | [Next.js](#) + [AI](#) 2025

- Built a live landing page targeting 'Subaru WRX STI 2026 Review' — implemented full heading structure, metadata, schema, and conversion-focused CTAs to practice SEO and CRO in a real production environment

WhatsApp Automation Bot | [Node.js](#) 2025

- Built a fully functional bot handling auto-replies, broadcast messaging, group management, and admin controls — demonstrating real engineering capability beyond a typical marketer skill set

AI Content Workflow System | [ChatGPT](#) + [Claude](#) + [Perplexity](#) 2025

- Designed structured AI prompts for blog research, keyword clustering, and content outlining to scale production without sacrificing quality

SKILLS

On-Page SEO	Search intent mapping · Semantic keyword coverage · Heading structure (H1–H4) · Meta titles & descriptions · Internal linking architecture · Content optimization (30+ pages) · CTR optimization · Schema markup
AEO	Answer Engine Optimization · FAQ schema · Direct answer blocks · Featured snippet targeting · Voice search optimization · Google AI Overview content structuring
GEO	Generative Engine Optimization · Entity-based writing · Authoritative data citation · AI-citation content structuring · Perplexity · ChatGPT · Google AI Mode visibility

Off-Page SEO	Link building strategy · Guest post outreach · Infographic & PDF submissions · Podcast link placements · Contextual backlink placements · 1,500+ backlinks built
Technical SEO	Screaming Frog · Google Search Console · Indexation audits · Canonical tags · Sitemap optimization · Crawl diagnostics · Core Web Vitals (learning)
Keyword Research	TOFU / MOFU / BOFU mapping · SERP analysis · Competitor gap analysis · Ahrefs (basic) · Search intent classification
Content & CRO	SEO content writing · Landing page optimization · Content structuring · Meta tag writing · AI content workflows
Automation & Dev	Node.js (WhatsApp bot) · Python scripting · HTML (basic) · Next.js (basic) · WordPress
Analytics & Tools	GA4 (learning) · Google Search Console · Screaming Frog · Ahrefs (basic) · Google Sheets · Canva
AI Tools	ChatGPT · Claude · Perplexity — used for content research, outlining, keyword clustering, and GEO optimization
